Spatial Data Analysis I, FALL 2021

Lab Exercise 1:   on **Wednesday March. 17, 14-16**

1. Redo the example of median polish by subtracting the column medians first.

1	6	3
5	9	2
6	4	7

2. Use the following data to show that $\hat{\gamma}(\boldsymbol{h})$ need not equal $\hat{C}(\boldsymbol{0}) - \hat{C}(\boldsymbol{h})$.

11	12	8	6
9	10	7	9

***There are more R problems (to be submitted) regarding the exploratory analysis on the moodle.
